

Community Outreach Forum

09 April 2023

The PPC held in Hebron a "Community Outreach Forum" as part of the USAID funded program "Policy Engagement & Constructive Exposure". The meeting which was facilitated by Dr. Bashar Farash and hosted Mr. Rafeeq Jabari, political analyst aimed mainly to increase awareness among youth core issues of the conflict, and obstacles to peacebuilding, as well as to enhance confidence among young them in their ability to make change in their own communities, given the prevailing circumstances on the ground. Serving as a platform for constructive dialogue and engagement on critical policy issues, and to foster a culture of active citizenship and participation in the democratic process among young people, the event contributed to strengthening the sense of ownership among participants over sociopolitical processes. The event was attended by a diverse audience of young people (20 participants), who engaged in discussions and contributed their ideas and perspectives on the current challenges and opportunities in their communities. In addition, the activity also aimed to promote informed and constructive participation in policymaking processes and strengthen the capacity of young people to effectively engage with decision-makers.
